

Mockup Review Notes : Eames House Website

Creative Director: Evelyn Pae

Designer/Developer: Katherine Feng

- I really like Mockup- B because of how unique it feels compared to other websites I have seen while adding to that mid-century modern feel with the geometric shapes.
- What if you combine the two mockups you made and have the cover page of Mockup B- Change the font to the Mockup A font style tho
- but the rest of the other parts of Mockup A,- like the introduction to the Eames House and the Architects of the Eames House because I really love the font choices and rounded corner pictures of Mockup A
- Regarding color, maybe trying a brighter pale yellowy brown instead of a paler orange of Mockup B I feel might look better - maybe try these shades??- but up to you
